

Queen Elizabeth II Silver Jubilee School

Prospectus 2018/19

Queen Elizabeth II Silver Jubilee School
Comptons Lane, Horsham, West Sussex, RH13 5NW

Telephone: **01403 266215**

FAX: 01403 270109

email: office@qe2school.co.uk

Headteacher: Mrs Lesley Dyer

Chairman of Governors: Mrs Helen Crooks

www.QE2school.co.uk

The School

The Queen Elizabeth II Silver Jubilee School caters for up to one hundred pupils, with ages ranging from two to nineteen years. All the pupils have severe or profound and multiple learning difficulties. Some pupils also experience more complex needs, such as severe epilepsy or autism.

The school is organised into ten class groups, each with a teacher and two or more special support assistants. The peripatetic teaching service for sensory impairment works closely with teaching staff. We are supported by a school nurse, speech and language therapist, a physiotherapist, an occupational therapist and a clinical psychologist. Pupils are seen regularly by the school doctor or community paediatrician.

The pupils at school participate in many activities. Each pupil has an individual learning plan based on our school curriculum and the National Curriculum. This will include many specialised activities, such as hydrotherapy, rebound therapy, riding for the disabled, aromatherapy and massage. The school has specialist status for performing arts and is committed to learning through this approach. The school has recently achieved the highly acclaimed gold Artsmark, for the third time. The school also prides itself on its links with the wider community through visits to other schools, link courses at colleges and work experience. Dual Placements with mainstream schools are encouraged if appropriate for individual pupils. The school has a successful partnership with Collyer's Sixth Form that offers a two year specialist course for students aged between nineteen and twenty-five.

The School Day - 8.50am to 3.00pm Monday to Friday

General information on admission arrangements and miscellaneous matters.

West Sussex County Council is the admissions authority for QEII School and all decisions on placements are made by them after consultation with the school. All children at QEII have an Education, Health & Care Plan (EHCP) and cannot be placed on roll at QEII without this. The school offers some early support for pre-school children who may not yet have an EHCP.

Mission Statement

L - Learn

E - Enjoy

A - Achieve

R - Respect

N - No matter who we are

Our Vision

QEII is a theatre where individuals are inspired and nurtured by the crew who provide the script and the freedom to ad lib.

Each individual can then perform to the best of their ability leaving with the confidence to go out onto the stage of life, their performance resonating with you forever.

Shared Values

Care (A mini vision)

The gardeners are planting a flower bed where all the seeds will grow. They all need to develop strong roots and the gardeners work hard to provide them with sufficient space, nourishment and care. They keep them safe from harm and when individual plants are ready they are potted on to flourish. We are gardeners sowing seeds which will grow to develop strong roots. We work together to give them space, nourishment and care. We keep them safe and protect them from storms. With mutual support we all flourish.

Consistency (A mini vision)

Everyone knows the rules of the game. The players are on the pitch, the officials are in place and the boundaries are set. There is space to move around, excitement and challenge, the ball may even go out. The officials and players keep the game flowing fairly, at the final whistle the crowd cheer, 'what a great match'.

Integrity (A mini vision)

Look in the mirror and what can you see, I see someone living out what they believe. We sparkle with honesty, trust and respect after all, it's what we expect. Now look in your mirror and shine.

Creativity

Think outside of the box to fill your canvas with fun, colour, passion, energy and originality. You have created your own masterpiece.

Empowerment (A mini vision)

Empowerment – he moves his head and the fan comes on, his face lights up.

Empowerment – they stand on stage confidently delivering their lines, they stand taller.

Empowerment – she signs to tell a joke, she laughs with delight.

Empowerment happens in a moment, moments combine and confidence grows, confidence shines out as self-belief.

Aims

To enable the individual to achieve his/her maximum potential by providing an appropriate teaching and learning environment and a curriculum which is innovative, creative, flexible, stimulating and relevant to the individual

To provide equal opportunities for all, that respect the individual's right to make choices

To ensure the individual's educational placement is appropriate and responds to his/her needs

To develop independence, confidence and self-esteem

To promote and share a pride in achievement

To work in partnership to support our families

To prepare the student for a smooth transition to adult life

To be a respected part of our local community

Pupil Charter

See me as a person

Allow me to keep my dignity

Acknowledge my right to privacy

Show me respect

Be sensitive to my needs and feelings

Tell me how you are going to help me before hand

Respect my personal space by not touching me inappropriately and help me to respond likewise

Talk to me not about me

Celebrate my strengths and differences

Help me to achieve

Help me to develop my own interests

Encourage me to behave appropriately

Help me to make appropriate choices

Accommodation

The school is a purpose built single storey building erected in the Silver Jubilee Year and opened officially by H.M. Queen Elizabeth II in March 1978. It comprises classrooms, hall, library area, hydrotherapy/swimming pool, therapy room, soft surface playground, trim trail, environmental garden, sensory garden and a small multi-sensory / soft play room. There is a large purpose built studio for performing arts and indoor sports.

A fully equipped sixth form has been built for the further education group.

The school has developed a bank of 'specialist' equipment to cater for the particular needs of the individual such as walkers, standing frames, hoists, appropriate seating and materials for sensory exploration. Each class has a bank of computers and iPads plus any adaptations necessary to enable access for all pupils. The school prides itself in specialising in a wide range of progressive environments such as the magic carpet and eye-gaze systems to ensure maximum interaction opportunities for all pupils.

Safeguarding

The care and well being of all pupils is at the heart of QEII School. Pupils, staff and parents work in partnership to ensure that the school is a safe place in which pupils may grow and develop. Any concerns about pupil well being are taken seriously and child protection is fundamental to this. The school follows rigorous safer recruitment procedures and induction and refresher training for all staff. Our Child Protection Policy is available on the school website.

SEN Policy

As a purpose built special school which caters for pupils with severe or profound and multiple learning difficulties, we recognise the uniqueness of every pupil.

We also acknowledge that each pupil has special educational needs. These will be met through the delivery of a developmental curriculum which embraces the Early Years Foundation Stage, National Curriculum and ASDAN vocational courses. Through an individual learning plan and close liaison with parents, carers, professionals, schools, colleges and work places we intend to ensure the maximum development of all our pupils.

The school will continue to have regard for the guidance set out in the SEN Code of Practice. The annual review and multi-disciplinary partnerships ensure that all pupils have equal access to a broad and balanced curriculum. Specialised equipment and activities are provided where necessary. Staff teach communication skills using a variety of alternative and augmentative communications (AAC) approaches including signing, symbols, switches, eyegaze technology and communication devices.

The school has developed an in-service training package. This is valued by all staff members who are eager to keep abreast of developments in special education.

Admission Arrangements

The school welcomes visitors. Prospective parents are usually shown around by the Headteacher by prior appointment.

Most pupils are admitted to school following statutory assessment. This procedure involves parents and relevant professionals and results in an EHCP (Education Health and Care Plan). Occasionally the Special Education Section at County Hall may recommend an assessment place which allows the pupil to be admitted whilst statutory assessment takes place. Pre-School children can be supported by the school's Early Support Programme which provides intensive support for young children enabling them to meet their potential and access appropriate schooling at the age of five.

Once admission has been agreed, arrangements for entry are made by the Headteacher in conjunction with the Education Department.

Complaints

If you wish to make a complaint relating to the school, you should go first to the Headteacher.

If you wish to make a complaint relating to the Education Authority, other than about the school, details are available on the West Sussex County Council Website (westsussex.gov.uk). If you are still not satisfied or would like more details please refer to the County booklet 'Information For Parents' which can be obtained from school.

Charges for School Activities

There is very little for which you can be legally charged at school. For further details, please refer to our charging policy which can be obtained from school. The school may ask for voluntary contributions for off-site activities such as riding for the disabled and swimming or school visits. School does not discriminate between those who contribute and those who are unable.

Current guidance from the Department for Education (DfE) on charging for school activities, states that children who are entitled to free school meals should be made aware that they do not have to contribute towards the 'board and lodgings' element of a trip. This cost would have to be recovered from school fund as we do not have adequate resources in the school budget.

Confidentiality

Queen Elizabeth II Silver Jubilee School employees, those who work here as part of their training, volunteers and visitors will be responsible for maintaining confidentiality at all times.

No personal information may be divulged to other parties without reference to the Headteacher. Professional debate within school should be carried out with discretion and sensitivity.

Absences

The school's attendance record is good. Authorised absences were recorded at an average of 9.28% with 0.44% unauthorised absences. This figure reflects a high proportion of sickness and hospital visits and family holidays. Parents are required to notify school of the reasons for any absences by telephone, email or letter. Please telephone the school office before 10.00am on the morning of the first day of absence. If it is necessary to take a holiday during term time, a holiday form is available from the school office and must be returned to school before the holiday commences.

Pupils at our school are often more vulnerable to infection and parents are asked to keep children at home if they have a severe cold, sickness and diarrhoea or an infectious disease, until they are fully recovered, to help avoid the risk of spreading infection.

If a pupil becomes ill during the school day, parents will be informed by telephone and asked to collect them.

School Clothing

The school uniform is not compulsory, but we would recommend that each pupil is dressed for school in shoes and clothing that are uncomplicated in style, and which will enable the individual to dress/undress as independently as possible.

As a guide, we recommend a school sweatshirt, which is royal blue and embroidered with the school logo, black or grey trousers/joggers/skirt and a white polo shirt: polo shirts with the school logo are available from school. In warmer weather shorts or blue and white dresses may be more appropriate for primary pupils, however we would ask senior students to continue to wear their winter uniform. In exceptionally hot weather senior students may wear knee length grey or black shorts as we appreciate our students may overheat or become uncomfortable. Parents are asked to label all items of clothing. Oaks Sixth Form do not wear school uniform.

For reasons of hygiene and safety, all pupils will need to change for PE lessons, including rebound therapy, into plimsolls or trainers with a white sole, a school team tee shirt and black shorts or tracksuit. Parents are asked to provide a drawstring PE bag which is labelled. It is particularly important for pupils to wear their PE kit for rebound therapy.

Jewellery including watches is not permitted in school, with the exception of students in Oaks Classes who will be expected to remove these items before sporting activities. Pupils with pierced ears can wear small studs only and they must be removed before PE lessons or covered with tape (micropore or similar). The school cannot accept responsibility for such items.

School reserves the right to forbid any personal belongings which could be considered to be unacceptably dangerous in school or against the interests of the pupils at large.

SCHOOL ORGANISATION

Willows Early Intervention and Assessment Unit

Willows class caters for children in the early years with a broad range of special educational needs. The classroom provides a bright, interesting and stimulating environment where the children follow the Early Years Foundation Stage curriculum. The curriculum is based on the provision of opportunities for learning through play, by way of practical activities and routines which will promote learning, as well as the need to acquire an established body of knowledge and skills.

The school is committed to the Early Support approach through multi-professional working. All families with young children will be offered the opportunity for regular meetings with the range of professionals involved with their child. This approach enables parents to feel supported in setting achievable goals for their child and helps to inform the assessment process and embraces the new approach to provide outcomes focused Education Health and Care Plans (EHCP)

The school is proud of its work in the local community and this is highlighted in the class by the outreach programme which involves 'mainstream' children coming to the school on a part time basis. This project ensures that our pupils are working alongside their peers, benefitting from the skills they bring to the class. The school has also fostered close links with local pre-schools, in particular with the local family centre to provide children with special education needs the opportunity to attend 'mainstream' settings supported by their key person.

The Primary Department
Palms, Chestnut, Beech and Elms

Palms, Chestnut, Beech and Elms classes cater mainly for infant and junior ages (Key Stage 1 & 2) although pupils are placed according to their individual needs. Our aim is to develop each of the pupil's present skills through individual and group work, working to the primary national curriculum and developing personal, social, health and citizenship skills.

The classes work in close partnership and often there are opportunities for pupils to access a range of activities in a variety of settings. This mainly presents itself in physical education and the creative arts.

The classes provide a balance of learning experiences through a variety of approaches such as role play, investigation, sensory learning, structured play, circle time, table top activities and discussion. Pupils are encouraged to take some responsibility for their own learning and are encouraged to evaluate their own performance if appropriate.

The classes work closely with partner schools such as Heron Way, Littlehaven, Holbrook and Leechpool where individuals or groups of children have the opportunity to interact with their peers each week and join in with constructive activities. This has proved very successful for many students, encouraging growth and inspiring individuals. During their time in Elms Class pupils are introduced to a residential experience involving a one night stay at a local outdoor pursuit centre.

Firs

Firs Class is particularly for pupils with profound and multiple learning difficulties. The class has a high pupil/staff ratio to enable activities to be completed on a one to one basis. There is a strong emphasis on a multi-sensory approach to education. Switches are used to enable the pupils to have control in their environment for example, in the hydrotherapy pool, sensory area of the classroom and to activate equipment used in differing activities, such as wheelchair mobility, cooking appliances, the hair dryer, fans etc. As with all classes, targets are set on a termly basis and are linked with the school's curriculum document. Post sixteen students work on achieving the ASDAN multi-sensory award. The speech and language therapist works with staff to promote effective communication through an appropriate means such as, switches or eye gaze technology. Staff also work closely with both the physiotherapist and occupational therapist so that mobility skills are maximised.

During their time in this class, pupils will experience a variety of positions which will help expand their horizons such as lying in a variety of ways, specialist seating and using standing frames. Where appropriate, pupils are also encouraged to walk in a specially designed walking aid, thus developing independent mobility. We also encourage use of our Motomed assisted bicycle.

The class follows a sensory curriculum which aims to enable greater access to the school curriculum. This will include activities such as hydrotherapy, Rebound therapy, aromatherapy, sensology, music therapy, tactile work and use of the dark room. Achievement is assessed using the Impacts Framework.

Emphasis is also placed on independence skills such as feeding, toilet training as appropriate and hygiene.

ASDAN

The Secondary Department
Cedar, Pines and Limes

Students in the secondary department follow a five year Key Stage 3 / Key Stage 4 curriculum and continue to work on individual targets. They benefit from our extensive creative arts curriculum and the use of iPads in lessons to increase their access to our diverse curriculum. Students are introduced to a residential experience when they are invited to spend a week enjoying offsite pursuits in the New Forest. Students are based in tutor groups and spend time working within these groups or in skills based groups. This allows them to access lessons targeted to their individual needs and benefit from a range of role models, thus enabling a broader learning and social experience. Students are encouraged to develop their personal skills, such as hygiene and then as they progress through the department, they develop skills for independent living such as shopping, cooking and preparing for a smooth transition to adult life. Links are encouraged with local secondary schools and individuals join their peers to access classes that they enjoy and are appropriate to them. Students at Key Stage 4 work on the ASDAN Towards Independence Vocational Qualification.

During their time in sixth form, all students attend link courses with local colleges and where possible and when appropriate, they undertake work experience tailored to individual interest and need, often from within our school setting. Students have the opportunity to build on outdoor pursuits and independence skills at our annual activity week at the Calvert Trust on Exmoor or Center Parcs in Elveden. Current and past students enjoy attending our Annual Reunion Prom and summer barbecue.

Collyer's/QEII Partnership

Students who are studying Personal Social Development at Entry Level 1 and above are able to apply for a place at Collyer's. This is a two year course catering for up to twelve young people aged between 19 and 25. Students study ASDAN Employability and Life Skills at their appropriate level and take part in various sports options, drama, art and food technology. All students are encouraged to take the Arts Award in their own particular field of interest, doing Bronze Level in year one and progressing to Silver Level in year 2. Other options include photography and courses in Sports Leadership and Dance Leadership. Students can also take an award in Healthier Foods and Special Diets.

Study at Collyer's takes place on a Monday, Tuesday and Wednesday. Students are encouraged to be as independent as possible while being supported by staff from QEII. Students are able to integrate with Collyer's life as much as they wish, including being on the student council, attending unions and using college facilities, such as the canteen. All lessons are open to Collyer's students supporting our students through a buddy system, their particular interests or through their own courses of study. The course at Collyer's gives students a supported and secure transition to progress from school life to perhaps studying at larger college campuses or accessing employment opportunities.

COLLYER'S
The College of Richard Collyer

Educating for excellence

The fostering of positive attitudes by parents and teachers to a pupil's learning cannot be over-emphasised. Pupils are encouraged from an early age to evaluate their work and celebrate achievement.

Creative Arts

QEII School strongly advocates the teaching of the Creative Arts. Subjects include Art, Dance, Digital Media, Drama, Music and Theatre Studies. We recognise them as a powerful teaching tool that can enhance learning across the whole curriculum. All of our students have complex learning needs. Our Creative Arts Curriculum is designed to enable each student to reach their full potential in respect of the skills unique to each subject, as well as personal development in communication, self-esteem, confidence and independence.

QEII has held the Artsmark Gold Award for the last 10 years. It was most recently updated in November, 2017. Several staff are Arts Award Trainers, and all students have a chance to achieve an Arts Award during their time at school.

The Creative Arts Department has been recognised nationally for its achievements. We have been proud to perform at events such as the National Dance Teachers' conference at the Laban Centre, a celebration of the Shakespeare Schools Festival in the West End, as part of the British Paralympics at Stoke Mandeville, we contributed to an animation that was shown at the torch ceremony of the Rio Paralympics and students have performed at the O2 Indigo Theatre. Our film RESPECT premiered at Pinewood Studios. The Creative Arts Programme at QEII has been greatly enhanced by the studio which was officially opened in July 2010. Our Head of Creative Arts constantly strives to provide the best opportunities and experiences for the students. Annual events include The Rock Challenge Dance Competition, The Shakespeare Schools Festival, the Christmas Nativity and the Horsham and District Dance Festival. We have a bi-annual Whole School Show, and every four years we perform a Gala at The Capitol Theatre in Horsham. We are also committed to sharing our expertise with other schools and the wider community through an ambassador programme.

We regularly display Art at The Capitol, and as well as weekly Art lessons, pupils also have regular opportunities to work with professional artists and to visit galleries. The Art Department also supports students in costume and prop design.

We have an active Music Department. Pupils enjoy a weekly Music lesson, as well as many extra activities such as choir, song-writing, Music Club and a Ukulele Group.

Sixth Form students have a weekly Theatre Studies session. The syllabus is divided in to nine modules over nine terms and includes Technical Theatre, Choreography and Devised Drama. Our sixth form students may also access work experience placements in our studio setting and have the opportunity to support younger pupils with dance events.

Digital Media takes place across the Senior Department, with all students having the opportunity to engage in Photography and Film Making.

English

At QEII we aim to continuously improve the proportion of children who achieve to their maximum potential in all aspects of communication, language and literacy. Our distinctive path includes a vision of English being so much more than reading, writing and speaking and listening and we employ a broad range of strategies and approaches to support development of language and communication skills. This includes the adoption of phonics across the school, using the Read Write Inc Phonics Scheme and our own developmental programme. Augmentative and Alternative Communication (AAC), latest technologies and the expressive and creative arts in addition to more traditional whole class based approaches. Our sixth form students work towards NCFE functional English qualifications at the appropriate level.

QEII has a well stocked library resource area and pupils and students are encouraged to develop their independent reading skills throughout all areas of the curriculum. The attractive reading area surrounds the 'Magic Carpet' that provides an opportunity to engage in some of the most advanced technology for literacy and learning.

Many of the pupils follow the Individualised Reading Scheme, a developmental programme that encourages freedom of choice in reading matter. In turn this motivates students to engage with reading throughout their school experience.

At QEII we are constantly striving for students to gain maximum independence and autonomy in all aspects of their development. The quality of teaching English is reflected through our consistently improving results in all subjects. Outstanding performances in the Performing Arts demonstrate the creative and imaginative approaches to teaching and the consistent good practice of our staff. Lesson observations and regular communication and exchange of ideas between staff lead to both improved provision for English and a consistent approach by all. In all classes, teachers strive to engage and motivate their pupils in order to maximize their achievement, using the communication approach that best matches each child. Creative use of ICT supports this process and pupils have access to iPads to support their learning.

In addition to teacher led initiatives for teaching English we have the support of speech and language therapists who work with teachers and our team of communication champions to produce individual plans to develop communication and provide a total communication environment throughout school. We also invite educators from outside to promote the learning of English for both staff and pupils and we embrace considered new thinking on the subject.

At QEII we are intent on removing barriers to literacy and communication and offering opportunities to raise standards and enjoy all aspects of English throughout the curriculum for all.

Maths

The school's developmental curriculum introduces pupils to a wide range of mathematical skills in the areas of using and applying maths, number and algebra, shape, space and measure and handling data. Individual measurable targets are set for each pupil, each term, in three of these areas, following our "Q Level" assessment scheme in order to ensure that pupils make good progress and acquire new skills. Sixth form students work towards NCFE functional maths qualifications at the appropriate level. Pupils are given the opportunity to explore mathematical concepts in a practical and meaningful way both in the classroom through such methods as Maths Makes Sense, Numicon and Diennes Maths. This is to ensure that they are able to transfer the skills that they learn to different environments and scenarios. It is important to ensure that pupils are able to generalise their mathematical knowledge as it will be necessary to apply their acquired skills to the many different situations that arise in adult life.

Computing

We believe that Information and Communication Technology has the potential to enhance the quality of teaching and learning across the curriculum. We have interactive whiteboards in all our classrooms, creating exciting opportunities for teaching and learning. The network offers suitable Internet access and a range of learning platforms are used widely throughout the school. Each class is equipped with iPads and there is a bank of laptop computers.

We recognise the importance of internet safety and this is promoted at all times in school as well as being specifically taught. We have also created a performing arts module around internet safety for our senior students.

Science

Science is taught to all class groups and aims to cover the various programmes of study for each Key Stage. Detailed schemes of work and subject modules are differentiated to take into account the strengths and requirements of individual students.

The investigative and explorative activities are of a functional and practical level, often of a sensory nature. Pupils are encouraged to develop a natural curiosity, awareness and care for their surrounding environment. They are taught how to problem solve and complete simple experiments commenting on their findings. The science curriculum is supported by opportunities for pupils to engage in the Forest Schools Programme. The continuous assessments begin with cause and effect activities and encourage pupils to self evaluate and report their achievements, using a range of technology such as iPads and interactive whiteboards.

The school is continually developing its extensive resource bank which includes materials for investigations alongside numerous science DVDs and internet and interactive resources.

PSHCE

The Personal, Social, Health, Citizenship and Emotional programme at school is an entitlement for all pupils and is seen as an integral part of the learning process beginning in early childhood and continuing into adult life. It is delivered as part of a whole school approach which aims for links to be established between health, citizenship, sport, safety, behaviour and other cross-curricular themes. This policy runs alongside the school's Sex Education Policy.

We aim to provide a variety of opportunities which relate to pupil's lives outside of school, for example, topics which are the focus of current media interest, events which have formed part of the personal experience of pupils, school visits and visitors to school.

The relationships between staff and pupils and those amongst staff themselves are very important. Standards, attitudes and patterns of behaviour can convey powerful messages and their significance is often underestimated. Lessons which promote courtesy, concern, respect and acceptance of responsibility for self and others will be more effective if these qualities are valued consistently in every aspect of school life. Health messages will have more significant impact if they are supported by opportunities to exercise skills learnt in the classroom through for example, appropriate systems of reward and sanctions.

Those who are happy with their image are able to take increasing control of their lives including decisions relating to healthy lifestyles.

Through the delivery of this policy the school aims to:

- develop knowledge and understanding about growth and development and the human life cycle
- foster self esteem, awareness of self and others and a sense of moral responsibility
- develop the skills of communication and decision making to overcome vulnerability
- encourage exploration of values and attitudes implicit in the development of mature responsible adults
- develop the skills required for an independent healthy lifestyle
- identify hazards and their associated risks and find strategies to control them

A copy of the school's more detailed policy document is available on the school website.

Physical Education

We believe that physical education, experienced in a safe and supportive environment, is important in its contribution to a pupil's physical and emotional development and health. Our pupils have the opportunity to access different areas of physical activity which are run by both internal and external staff. Swimming and horse riding take place off site. We are well resourced with a variety of apparatus and small games equipment for both indoor and outdoor use. We have a full size trampoline and run a rebound therapy session for each class. Rebound is also offered as an after school activity. Students in the Sixth Form are offered sports options which include: swimming, gym, golf, dance, badminton, indoor sports, table tennis, Zumba and sensory exercise.

Art and Design

Our school provides a balanced and continuous programme of art for all pupils to enjoy. This programme builds upon students' previous experience and extends capabilities further. Some older students are given the opportunity to explore in more detail through access to an outreach arrangement at local secondary schools and colleges. We have an art room in our studio which all our students have access to as well as classroom based activities. Pupils are encouraged to produce work with minimal help as this not only gives a sense of ownership and achievement but also provides a useful area of assessment. Art and design is supported by a full time art technician. Our art and design programme is supported by our patron of arts Rachael Gadsden, who holds regular residencies and gifted and talented art projects.

Music

Music can be found across all aspects of the curriculum and school life. It is used as a means of connecting with students and in a range of holistic and therapeutic situations. It is used cross curricular and compliments all subjects.

Through our specialism in performing arts our school boasts a number of talented professional singers who enhance our music programme and give students the opportunity to use and experience a range of instruments and singing is an important part of school life. The national curriculum for music is adapted to suit the needs of our students. The school has a student and staff choir which has performed in a number of locations in the locality and a music therapy after school club.

History and Geography

Our History curriculum provides pupils with opportunities to study a wide range of historical facts and artefacts. Pupils start with their own immediate history and are later given opportunities to develop their understanding and awareness of historical periods, events, people and issues within local, British, European and World contexts.

Our Geography curriculum aims to provide pupils with opportunities to draw on a widening range of geographical skills and to use them with increasing selectivity, accuracy and independence. Our teaching of geography will enable pupils to develop a growing awareness of their environment locally, nationally and globally.

As with all foundation subjects history and geography provide us with a wealth of opportunities to teach functional skills to individuals in a way that is both meaningful and motivating. This approach gives pupils the opportunity to practice the skills they have been taught in a range of contexts and environments thus enabling them to generalise their learning and apply skills to many situations outside of the classroom.

Modern Foreign Language

All pupils and students at QEII have the opportunity to experience a variety of cultures and languages. MFL at QEII is taught through multi-sensory presentation and practice. Pupils and students are immersed in the habits, culture and traditions of different cultures and teaching is pitched to the needs and abilities of all through careful differentiation. For example, pupils and students in KS3 have learnt about Spanish through participating in a reconstruction of a Tomatina Festival alongside learning formal vocabulary and grammar; younger pupils participate by celebrating in themed events where they try food from a variety of countries and listen to stories of different cultures.

Religious Education

Our pupils are taught Religious Education according to the West Sussex Agreed Syllabus. Pupils learn about key aspects of Christian belief and also have an introduction to other cultures through the study of the major world faiths. Parents have the right to withdraw their children from Religious Education and Collective Worship if they wish.

Each year all pupils are formally reviewed through the annual review of the EHCP. As part of this process the school keeps an ongoing record of progress towards the outcomes identified in the EHCP and whether they are achieved, adjusted or newly created.

Student Council

The Student Council meets with the headteacher on a weekly basis. Each class elects a representative who will speak for all the pupils in their class. They are able to bring any issue to the council for discussion and all are taken seriously. The student council plays an important part in the decision making process at school, for example, interviewing new staff, on fundraising initiatives, judging school competitions, helping to choose colour schemes for the school, deciding on the theme for our playground project, requesting equipment etc. The student council has its own award scheme; each week it chooses two or more pieces of work to receive its certificate and a spot on the Student Council notice board. The Student Council spent a great deal of time developing the Student Manifesto which brings together the views of all pupils on what they would like to see at school and this is monitored through its annual questionnaire to all students.

Behaviour

Queen Elizabeth II Silver Jubilee School is committed to learning. It is important that behaviour is managed so that the aims of the school can be achieved. The majority of disciplinary issues are tackled in a positive manner, whereby teachers focus on and celebrate individual strengths and achievements. Negative behaviour is discouraged unobtrusively to negate any attention seeking behaviour. The purpose of this policy is to support this process through:

- The creation of a positive and orderly atmosphere where teaching and learning can take place
- The creation of a safe environment for pupils and staff through the clarification of expectations, roles, rights and responsibilities
- The reduction of staff stress through the identification of effective systems and practices
- Addressing the demands of changing conditions and approaches.

The full behaviour policy is available on the school website and covers the following areas: aims, rights and responsibilities, bullying, protocol for dealing with challenging behaviour, supporting staff, whole school behaviour meetings, individual behaviour programmes, protocol for dealing with serious incidents, physical restraint, exclusion, dealing with challenging behaviour whilst off-site and suggested do's and don'ts.

Careers Education

The school's career policy embraces vocational and further education.

Statements of Intent

- To become a valued member of the local community
- To prepare for a smooth transition to adult life
- To develop confidence, self-esteem and maturity
- To develop social/emotional awareness
- To be responsible for their own actions
- To interact and integrate with their peer group
- To develop an awareness of safety/danger in many situations
- To encourage as much independence as is possible by developing personal and social skills, inter-personal skills and domestic skills
- To promote as many numeracy and literacy skills as possible as an aid to self reliance

These are realised and monitored by means of our multi-disciplinary meetings, work and college placements and further education in the Independence Unit.

West Sussex County Council has appointed personal advisors who work with families to support the transition to adult life.

Equal Opportunities

The whole ethos and environment of Queen Elizabeth II School contributes to a general awareness of equal opportunities and multiculturalism. All staff are involved and have a part to play in this process. An effective policy for the school can only be achieved by raising awareness and continued review of good practice. The school's Equality Policy and Disability Equality Scheme is available on the school website.

The Governing Body

Mrs Helen Crooks
Mr Peter Wright
