*Are extremely proud to offer its members a
Workshop, by Community Children's Dietitian...*

Joanna Mankelow

BSc (Hons) RD

"Complex Feeding & ARFID"

Joanna is a Community Children's Dietitian who has worked in the area for the last 25 years. She has a special interest in helping children and families struggling with complex feeding difficulties, many of whom also have a diagnosis of Autism.

She has attended Autism Support Crawley coffee mornings and had conversations on this topic before. She has also initiated and run parent workshops for parents and carers, helping them to manage feeding difficulties in their children.

Joanna is part of local professional groups reviewing provision and discussing services for these children and has been raising the profile of the struggles children and families face with complex feeding difficulties, among her health and education colleagues.

Joanna will be running a workshop for Autism Support Crawley on Complex Feeding and ARFID and would love you to attend.

TUESDAY APRIL 14th 2026 10.00am – 12.00pm
